

F. Truman speech
X: Training I

21 November 1952

MEMORANDUM FOR THE DIRECTOR:

Roger Tubby and I had agreed that there would be no release by the White House on the President's talk today with only a confidential word to the press that the meeting had been held so that CIA would not appear in the press.

Tubby told me that Mr. Truman desired, however, to have it made known that he attended at your request. Around three o'clock today he will issue part of the statement the President made in the meeting. Mr. Tubby said he spoke to you and that you knew of the details.
